

We're writing to ask that you do not allow LPFM stations to take priority over our FM translator broadcasting K-Love locally. K-Love not only serves our community by broadcasting uplifting Christian music, it also provides current news, info relating to upcoming community events and even utilizes the National Broadcast Services system for warnings. In addition to the positive impact to our community, on a personal level the positive & encouraging message helps us to get through our day. Please do not take that away.
